LV Urban Hand Bag:
and celebrate
environmental fitness**

Green is the new black.
Make handbags from food wrappers and be an environmental fitness star.

Queen of Green, Megan Bayliss, global advocate at The Junk Wave will help you:

- Stay smart about environmental fitness
- Maintain a near zero craft footprint
- Make your handbag from 100% recyclable material
- To save the planet while being uber stylish
- To develop language and theory about why recycling is important
- Have fun (a speciality of Megan's) while working with other likeminded women
